To access the Plant & Equipment from EPP, go to:

1. Click Asset Management from the Menu and choose Launch Plant & Equipment.

2. You will then be directed to the Plant & Equipment web page where you can select the client and worksite you are bringing the Plant & Equipment to.
3. User guides for registering plant items are available [here](#).

The menu options for Plant & Equipment will only appear in the Contractor Portal once your company has one person mobilized to any site using these modules.
